

Additional Resources

To help you in your quest for accurate nutrition analysis, here are some additional resources:

- Subscribe to *Food Label News*, a free monthly e-newsletter including topics of interest to food labelers and answers to reader questions: www.foodlabelnews.com/subscribe
- Request the free one-pager with rules of thumb used by Food Consulting Company; enter “rules of thumb” in the Comments box: www.foodlabels.com/contact
- Join the discussion about topics of interest to food labelers on LinkedIn’s Food Label Community: www.foodlabels.com/linkedin/community
- Register for a *Genesis R&D* training session: www.esh.com/training

About Food Consulting Company

Food Consulting Company, founded in 1993, provides nutrition analysis, food labeling and regulatory support to ensure compliance for products sold in North America (U.S., Canada and Mexico) and Europe. With over 1,500 clients worldwide, Food Consulting Company is the largest outsource provider of these services for manufacturers, distributors, importers, and restaurateurs – from start-ups to Fortune 50 companies like PepsiCo and Target.

Since 1998, Food Consulting Company has partnered with ESHA Research to conduct intensive training for *Genesis R&D*, the food industry’s leading nutrition analysis software. Having conducted hundreds of training sessions, Food Consulting Company continues to provide insights on topics important to food labeling and accurate nutrition analysis.
