

Thank you for your interest in Food Consulting Company.

Since 1993, we have provided nutrition analysis and food label guidance for start-ups, fortune 500s, manufacturers and distributors, retailers, ingredient suppliers, importers and brokers, restaurateurs and others in the food industry. From nutrition analysis to nutrition facts labels to ingredient statements and allergen labeling, our goal is to make your job of complying with FDA and other government food label regulations easy.

- Our promise: accurate, timely service
- Our guarantee: 100% regulation compliance

We look forward to serving you!

Best regards,

Karen C. Duester, MS, RD
President

P.S. Look for your first issue of **Food Label News** – our monthly email publication with updates and insights about what matters in food labeling. It's delivered on the first Friday each month. We are pleased to provide you with a complimentary subscription.

COMPANY

Overview

Food Consulting Company, founded in 1993, delivers nutrition analysis and food label guidance to ensure 100% regulation compliance. Team

Food Consulting Company is a team of consultants with expertise in nutrition analysis, food labeling and regulatory compliance. Karen Duester, MS, RD, leads the company with 30+ years of experience, having worked extensively in government food label regulations. Our team specializes in the development of food labels for U.S., Canada and Mexico, cross-border compliance and claims substantiation. Our intimate knowledge of compliance requirements and industry trends are invaluable resources for our clients who must create labels correctly the first time.
